The same crowd that is keeping McDermott on made Gov. McCreary believe he was in the Senatorial race, up to the last minute. Mr. McDermott will not get as many votes as the Governor received.

Several hundred farmers of German birth or ancestry, expelled from Canada or who fled to escape internment have since found refuge in cities of the Northwest, are preparing to emigrate to New Mexico. It is announced that 1,000 had planned a farm colony near Santa Fe to be named Hindenberg.

The United States has decided to ask the co-operation of South and Central America in the next step to restore peace in Mexico. The ambassadors from Argentina, Brazil and Chile and the ministers from Bolivia, Uruguay and Guatemala have been asked to confer with Secretary Lansing to-day.

A general denial that foreign merchants were expelled by General Villa, that there were any executions of Mexican merchants Saturday at Chihuahua city, or that General Villa used any "insolent" language towards the United States government is made by General Ornelas, commander of Villa forces at Juarez. General Ornelas said he attended the conference between General Villa and the merchants Saturday.

IDEA OF DOMESTIC ECONOMY

Ten Cents' Worth of Gasoline Should Be Sufficient to Deaden Pain in Pulling Woman's Tooth.

The old colored man meandered into the dental parlor, accompanied by his wife, who was suffering from an aching molar.

"Maw'nin', boss," said the old man. "Ah done fetched mah ole woman foh ter hab er tooth yanked out, sah."

"All right, uncle," said the dentist. "shall I give her gas to deaden the pain?"

"What am dat gas er goin' to cost?" asked the aged African.

"Oh, about 50 cents," replied the tooth carpenter.

"Looky hyar, boss," said the old fellow, "dat am er heap ob money foh ter pay out recklessness. Kaint yo'll gib er a leetle gasoline fer erbout a dime?"

Impressed by It.

"As a matter of fact," said the lawyer for the defendant, trying to be sarcastic, "you were scared half to death and don't know whether it was a motor car or something resembling a motor car that hit you."

"It resembled one all right," the plaintiff made answer. "I was forcibly struck by the resemblance."—London Tit-Bits.

A Puzzler.

Husband—Be reasonable, dear! Alexander the Great drank more than I do! So did Peter the Great, Adolphus the Great, the great Bismarck and—

Wife—Oh, indeed! And were they buyers for Goldbury and Vladimir, at \$30 a week?—Town Topics.

Couldn't See the Wisdom.

Little Jack was found in the pantry covered with jam. His father said, "I think, my boy, you would better go and show yourself to mother." With a roguish look Jack replied, "No, daddy, I think I better."

State of Ohio, city of Toledo, Lucas County, Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

Sworn to before me and subscribed in my presence, this 6th day of December, 1915.

A. W. GLEASON, Notary Public.
Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, etc.
Take Hall's Family Pills for constipation.

FARM ANIMALS

SUMMER DISEASE OF CATTLE

Infectious Sore Eyes Cause Many Animals to Go Blind—Spread Through Medium of Flies.

(By GEORGE H. GLOVER, Colorado Experiment Station.)

There is a disease among cattle, seen mostly in the summer, affecting the eyes and causing many of them to go blind. This is an infectious sore eye, and by cattlemen on the range is spoken of as "pink eye" of cattle.

This disease is undoubtedly infectious and spreads from one animal to another, probably through the medium of flies. The disease runs its course in an animal in from one to two weeks and may result in total blindness, though usually the sight is not impaired. Only one eye may be affected. The first symptoms is a profuse flow of tears. Soon the eye becomes very sensitive to light and is kept constantly closed. The eyeball becomes clouded and gives the appearance of a film over the eye.

Animals affected with this disease should be confined in a comfortable stall with the light excluded and given laxative, nourishing food.

A simple treatment consists of bathing the eyes with a strong solution of boric acid, or perhaps what will be still better, a few drops of the following mixture may be placed in the eyes with a dropper several times a day: Add half a grain of zinc sulphate and ten grams of boric acid to an ounce of distilled water.

The animal should be protected from the flies, as they greatly increase the irritation to the eyes and probably spread the infection to other animals.

SHROPSHIRE IS BEST SHEEP

New York Breeder Is Very Careful to See That Ewes and Lambs Get Plenty of Exercise.

I consider the Shropshire the best utility breed among sheep. As a producer of wool and mutton both of the best quality are secured. I became interested as early as 1880, having at that time some Shropshire grades, writes Arthur S. Davis of Orange county, New York, in Orange Judd Farmer. One of my ewes weighs 200 pounds, and in four years has sheared 60½ pounds wool. My yearling rams run from 170 to 200 pounds.

It is my rule to change the sire to prevent inbreeding once every two years. My method of breeding for show does not differ from that for any other purpose. I give them

First Prize Shropshire.

plenty to eat, like oats, clover hay and clover pasture, in season. I am very careful to see that the lambs and ewes take lots of exercise, and do not care for shelter except from winds and storms.

My chief difficulty has been with stomach worms. I am now using tobacco dust with a salt, which gives good results. It is advisable not to keep them on old pastures too long at a time.

PROPER FENCING FOR SHEEP

Always Looms Up as Serious Problem to Those Interested in Keeping a Few of the Animals.

To those interested in getting a few sheep on the farm the fencing problem always looms up as a most serious difficulty. It does not require a heavy fence to hold sheep. Barbed wire, however, is most unsatisfactory fencing for sheep.

The best kind of fence is one made of woven wire from 30 to 42 inches in height, having from five to nine horizontal wires and from 16 to 20 stays or vertical wires to the rod.

Any woven fence coming inside these limits if put on to good posts from 14 to 16 feet apart will make a satisfactory fence for turning sheep. With a 30-inch woven wire it is always desirable to place at least one barbed wire on top.

When building a fence to turn sheep it might just as well be so constructed as to turn all classes of farm animals.

Where it is desired to fence against hogs it will be necessary to have a barbed wire next to the ground as well and a somewhat closer mesh and heavier wire must be used.

Soy Beans Per Acre.

About one and a half peck of soy bean seed will sow an acre when planting with a corn drill one seed in a hill 24 inches apart in the same row as the corn. This makes a splendid hog food.

HON. JAMES D. BLACK

A PARTY PROBLEM WITH ONLY ONE SOLUTION

It is conceded that the Republican nominee for Governor will be Mr. Morrow, of Pulaski county, which county almost adjoins the county of Knox, the home of Judge James D. Black, candidate for the Democratic nomination for Lieutenant-Governor.

Pulaski county is near the center of a section composed of thirty-odd counties, in Southern, Southeastern and Eastern Kentucky, in which the Republicans are greatly in the majority, and which includes the Eleventh Congressional District of Kentucky, the great Republican stronghold of the state.

Nevertheless there are thirty thousand Democratic voters in said counties, and in all that region Black is the only candidate seeking position on the Democratic ticket. Is this situation to be neglected by the Democracy?

Both political expediency and wisdom demand that that section of Kentucky have a representative on the Democratic ticket.

To win in November we must make no mistake in August. The Republicans will make every effort to get out an overwhelming vote in the Republican counties. Who, then, is to stay this avalanche of votes and counteract their influence if the Democrats have no local candidate about whom they can be rallied to victory?

The Democrats of Hickman county should seriously consider the problem and be ready with the only solution—a big vote for Judge Black in August.

—Clinton Gazette.

Hon. Jas. D. Black Of Knox County, For Lieutenant-Governor, Will Add Strength To The Democratic Ticket In November.

(Editorial in Adair County News.)

The time has come when Democrats should begin to think about the November election, and the candidate who will add most strength to the ticket.

Judge James D. Black, of Knox county, Lieutenant-Governor, is the only candidate for a position on the Democratic ticket from the Eleventh Congressional District. He is a first class lawyer and a gentleman who takes much interest in public affairs, and is a successful business man.

Judge Black was for several years President of Union College, of Barbourville, and is one of the recognized educational leaders of the State. He was appointed First Assistant by Attorney General James Garnett in January 1912, and served in this capacity until he was forced to resign on account of ill health.

He was the Democratic nominee for Congress in the Eleventh District in 1896, and made an active canvass of the district in that memorable campaign. In 1900 he became a candidate for Governor against J. C. W. Beckham, but withdrew before the convention. He was Grand Master of the Masons of Kentucky in 1888.

Judge Black has always been an open advocate of all moral and progressive measures. He is popular throughout the Eleventh District, an attractive speaker, and if he is nominated for Lieutenant-Governor he will do more to counteract the strength of the Republican nominee for Governor in this district than will any other man who could be selected.

The Democrats of Adair county know Judge Black and his qualifications for the office of Lieutenant-Governor. From the expressions which we have heard we believe that he will receive the unanimous vote of Adair county in the August primary.—Advertisement.

It is estimated that the government's Grand Canyon game refuge in Arizona now contains about 10,000 deer.

FARM POULTRY

BUILDING UP POULTRY FARM

Necessary to Make Right Kind of Start and Work Must Be Faithfully Performed Every Day.

(By MICHAEL K. BOYER.)

A poultry farm built upon a secure foundation is sure to be successful if it is afterward properly managed. It is not only necessary to make the right kind of a start, but the work must be regularly and faithfully performed day in and day out.

As a rule beginners start with great enthusiasm, and not a few build air castles, but to many of them the sameness of the work, the close application, the constant watching, soon become monotonous, and then there is a shirking of duty, neglect, carelessness, and the enterprise becomes a failure.

The point is to begin small—measure the size of the initial step with the amount of capital and experience at hand.

It is often the case that men with more or less available capital, practically put all their money in houses and stock. This is a mistake, and more so

A Purebred Cock.

in the case of those who have no personal experience in the work.

In the parlance of today, "a man must be on to his job." He must know what to do and how best to do it. He must be aware that inexperience may cause leaks, and leaks will soon sink the enterprise.

It is a noteworthy fact that most successful poultry farms of today are those that have started from a small beginning and gradually expanded as business and experience warranted.

Men who would not go into the dry goods business for the reason that they knew nothing about it, will build houses and stock them and expect the hens to do the rest.

Hens, like cows, yield a profit according to the treatment given them. They will not stand neglect. They are hard workers when properly managed and rewarded, but they can be the most idle and indifferent producers when made to shift for themselves.

Our agricultural colleges have done much to teach the new aspirants how to tread in poultry paths, and men and women who endeavor to improve by these excellently arranged courses of instruction will have won half the battle—the other half naturally belongs to practical experience.

A man with \$1,000 would better invest one-half of it in buildings, stock and fixtures and reserve the other half for feed and running expenses, than invest the entire amount in the equipment and have to go in debt for the feed.

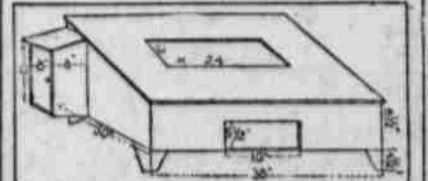

Eggs and poultry are staple crops and the demand is far greater than the supply. This country needs more poultry farms, and they will be successful when properly built and managed. But the beginning must be small and the growth gradual so that every part of the work is promptly noted and carefully and correctly performed.

BROODER FOR LITTLE CHICKS

Homemade Affair Can Be Put Together Cheaply by Use of Well-Seasoned Light Lumber.

(By A. C. SHELDON, Ohio.)
The brooder is made of well-seasoned light lumber, and the top is 40 inches long, 32 inches wide; with the other dimensions given in the illustration.

The little opening in front should have a little side door. The little box

Homemade Brooder.

on the corner of the brooder as shown is for the lamp or lantern to be placed in to heat the brooder. It should be lined with tin or asbestos. There is a glass opening in the top, 12 by 24. This makes a fine brooder for spring, summer and fall, and gives excellent satisfaction. Its capacity is 220 chicks, and it can be made at a very small cost.

Incubator Most Reliable.

You can hatch eggs in an incubator that you cannot trust under a hen. Thin-shelled eggs a hen soon demolishes, while an incubator will bring these out nicely, and so it will a cracked egg.

Mid-Summer Campaign Offer

Hopkinsville Kentuckian

ONE YEAR

AND

Daily Evening Post

UNTIL NOV. 10, 1915

FOR

\$2.50

This offer is made for mail subscribers only; those living in the country or on rural routes, or in small towns where the Evening Post cannot be delivered by carrier or agent.

225 Acre Farm For Sale

Meacham Farm Near Gracey To Be Sold For Division.

The A. W. Meacham farm, one mile northeast of Gracey, is offered for sale for division. It consists of three tracts of land, lying on both sides of the old Bellevue road. Two tracts of 112 and 45 acres lie along side each other on the South side of said road and the other of 68 acres is just across the road, on the North side. A cottage of seven rooms is on the large tract, with large barn, stable and other out-buildings.

A never failing stream of water, known as Meacham's branch, crosses the farm. A portion of the large tract is in timber. The farm is rented for 1915, but partial possession for seeding crops could be given in the fall. For further information apply to

CHAS. M. MEACHAM, Hopkinsville,
J. P. MEACHAM, Gracey, or
T. J. BAYNHAM, Edgote.

3 IN ONE OILS.
CLEANS, POLISHES,
PREVENTS RUST

3 IN ONE

3-in-One is a light, pure oil compound that never gums. 3-in-One lubricates perfectly sewing machines, typewriters, bicycles, locks, clocks, guns, lawnmowers—everything that ever needs oiling in your home or office. No grease. No acid. A little 3-in-One on a soft cloth cleans and polishes perfectly all veneered or varnished furniture and woodwork. Sprinkled on a yard of black cheesecloth it makes an ideal Dustless Dusting Cloth. 3-in-One absolutely prevents rust on gun barrels, radio fixtures, bath room fixtures, gas ranges, everything metal, indoors or out, in any climate. It sinks into the unseen metal pores and forms a protecting "overcoat" which stays on. Free—3-in-One—Free. Write today for generous free bottle and the 3-in-One Dictionary of hundreds of uses. 4-in-One is sold in all drug stores in 3-ounce bottles: 10c (1 oz.), 25c (3 oz.), 50c (8 oz., 3/4 pint). Also in new patented Handy Oil Can, 25c (3 3/4 oz.). 3-IN-ONE OIL COMPANY 42 D A Broadway New York City
